Your success. Our goal.

Your success. Our goal.

Your success. Our goal.

## LOGISTICS Competence

"Your success, our goal", is the motto of the firm BWG Reimer. On the basis of speed, reliability and security we offer a high quality transportation organization and handling service. Through the manifold variety of our skills we offer you concrete competitive advantages - and that worldwide.

For over 75 years we have offered services for the organization and handling of the national and international distribution of freight by land, by sea and by air. With approximately 450 staff our firm is one of the largest international businesses in north Germany.

Through our cooperation with partners at the point of delivery we offer the advantages of complete and thorough coverage. An individual logistics concept tailored exactly to your needs is one of our strengths. Therewith we can offer you the optimum support for your logistics assignments. Your success is our goal.

## CUSTOMER Orientation

The ideal handling of logistics assignments depends upon a variety of factors. The optimisation of these factors is our task. That also means the choice of the right transportation method for your delivery requirements.

- **By Road.**  
Our fleet of vehicles, from automobiles for speedy transport to 38-ton trailer lorries, is always in operation. For high flexibility the lorry is indispensable.
- **By Rail**  
Whether for long distance or in ecological combination with the lorry, by rail your goods are on the way.
- **By Sea**  
On the basis of our long experience as a seaport forwarding agent we organize container traffic reliably and handle loading and unloading, packing and scheduling.
- **By Air**  
With us your freight always flies first class, worldwide, punctually and reliably.

## STANDARD Products

Logistics is much more than simply delivering goods from A to B. A variety of individual services and the utilization of the most modern communication techniques are necessary for the frictionless operation of logistics. Our standard products are the basis of our specialized services.

- **National 24 h / 48h**  
Efficient bundling of freight traffic, rail traffic substitution, full service from sender to receiver with permanent shipment tracing.
- **International**  
Over 100 cooperative partnerships worldwide, reliable and thorough network coverage by land, by sea, by air.
- **Import/Export**  
Preparation of necessary documentation, applications for import authorization, competent advice for customs and overseas trade questions.
- **Storage logistics**  
the most modern technology, we offer you services that meet your demands in every detail.
